The GS 350 with available all-wheel drive (AWD) means high-performance driving in virtually any kind of weather. In low-traction situations where other performance sedans might just turn around and go home, the GS 350 AWD doesn't hesitate for a moment. Engine power is automatically directed to the wheels with the best grip, helping to provide greater adherence to the road, especially during cornering. So while you weave your way through the twists and turns, you may find yourself wondering: Is it the all-wheel drive or just your incredible driving skills?

Optional equipment shown.

AVAILABLE IN A RANGE OF
INTENSITIES.

No matter what level of exhilaration you desire, the GS Line has everything you could need. From the remarkably agile GS 350 AWD to the extraordinarily powerful GS 450h, you won't be left wanting. Anything.

TECHNOLOGY AS IMPRESSIVE AS THE POWER IT PRODUCES.

At the core of the GS 450h is the advanced Lexus Hybrid Drive system, which features a powerful V6 gasoline engine and a high-output electric-drive motor. An Electronic Control Unit (ECU) constantly decides how much of each power source is required, helping to ensure peak performance and maximum efficiency.

Improving efficiency even more is regenerative braking, which uses kinetic energy produced during deceleration to recharge the hybrid battery. Braking as a source of power. Can you think of anything more ingenious?

EVEN THE HEADLAMPS ARE BUILT FOR CORNERING.

When it comes to high-performance driving, visibility is key. For enhanced nighttime driving—especially on winding roads—the available Adaptive Front Lighting System (AFS) can pivot the left headlamp up to 15 degrees and the right headlamp up to five degrees, helping to illuminate more of the road through turns.

In the daytime, the instrument-panel gauges utilize Electronic Chromatic Device (ECD) technology to help reduce glare. A sensor located near the rear window detects the amount of light being projected into the vehicle. At a certain level, the faces of the gauges automatically lower their transparency levels, making the GS even easier on the eyes.

IN THIS CASE, THE
SMALL DETAILS
ARE THE BIG PICTURE.

Only the finest materials go into a GS. Take the genuine wood trim. Each piece of paneling is carefully hand-selected, helping to ensure consistency in both grain and color. And then there are the available semi-aniline leather-trimmed seats, smooth to the touch but not so overly polished as to cause unwanted sliding during hard cornering. It's details like these that set the GS apart from other high-performance sedans. Along with its pure, unadulterated power, of course.

SAFETY CONNECT™

FarmaSOS.com

DESIGNED TO HELP

SAFEGUARD YOUR LIFE.

With Safety Connect,^{11,14} you can request emergency help, whether that means assisting the police with locating your stolen vehicle or requesting Enhanced Roadside Assistance¹⁵ for a flat tire. The Safety Connect^{11,14} service also features Automatic Collision Notification, which automatically sends a call for help the moment the system senses the vehicle has been in a severe rear-end collision or the airbags¹⁶ have been deployed.

LEARN MORE

LEXUS ENFORM™

DESIGNED TO HELP SIMPLIFY YOUR LIFE.

With the available Lexus Enform^{11,12} system, you can speak to a live service agent, 24 hours a day, seven days a week. You don't have to memorize any numbers, navigate through seemingly endless screens—or even have your cell phone with you.

Need an address? Simply call Destination Assist via the GS's available Navigation System¹³ for live assistance. Once you've decided on a location, your agent can send the turn-by-turn directions straight to your vehicle's Navigation System.¹³ Planning a trip? You also have the option of pre-selecting up to 200 destinations online and sending them to your vehicle.

SEATING AND TRIM

Golden bird's-eye maple, dark gray bird's-eye maple or red walnut interior trim

Semi-aniline perforated leather-trimmed interior (GS 460, GS 450h)

Perforated leather-trimmed interior (GS 350)

Leather-trimmed steering wheel and shift knob (GS 350)

Wood- and leather-trimmed steering wheel and shift knob (GS 460, GS 450h)

10-way driver's and front passenger's (including lumbar) power seats

Heated front seats (GS 350)

Heated and ventilated front seats (GS 460, GS 450h)

Height-adjustable headrests for all seats

Carpeted floor mats

COMMUNICATION, AUDIO AND NAVIGATION

Lexus 10-speaker Premium Surround Sound System with Automatic Sound Levelizer (ASL) and in-dash, single-feed, six-disc CD auto-changer

XM® Radio.^{13,17,18} Subscription required. 90-day trial subscription included

USB audio input for iPod^{®30}/compatible music player integration with audio system

Bluetooth® technology³¹

Bluetooth audio³² profile for wireless integration of compatible music players with in-vehicle audio system

In-glass antenna with FM-diversity system

Backup camera²⁰ (GS 450h)

INSTRUMENTATION AND CONTROLS

Steering-wheel-mounted audio and display controls

Liquid-crystal multi-information console display

Electronic Chromatic Device (ECD) instrumentation

STANDARD SAFETY AND SECURITY FEATURES

ACTIVE SAFETY

Four-wheel ventilated power-assisted disc brakes

Electronic Controlled Braking (ECB) (GS 460, GS 450h)

Four-sensor, four-channel Anti-lock Braking System (ABS)

Vehicle Dynamics Integrated Management (VDIM)¹ with cutoff switch

Vehicle Stability Control (VSC)¹

Traction Control (TRAC)

Brake Assist²²

Electronic Brakeforce Distribution (EBD)

Direct Tire Pressure Monitor System³³

Adaptive Front Lighting System (AFS) (GS 460, GS 450h)

High-Intensity Discharge (HID) headlamps with dynamic auto leveling

Headlamp washers (GS 450h) تلفن شبانه روزی: ۰۸۵ ۸۸۶۲

Integrated foglamps

LED taillamps

Water-repellent front-door glass

Rain-sensing intermittent windshield wipers with mist cycle (GS 460, GS 450h)

Variable intermittent windshield wipers with mist cycle (GS 350)

Power-adjustable, auto-folding outside mirrors with defoggers, puddle lamps, integrated turn indicators and auto tilt-down in reverse

PASSIVE SAFETY

Driver's and front passenger's dual-stage airbag system (SRS)¹⁶

Front seat-mounted side airbags (SRS)¹⁶

Front and rear side curtain airbags (SRS)¹⁶

Driver's and front passenger's knee airbags (SRS)¹⁶

Rear-seat side airbags (SRS)¹⁶

Active front headrests²³

Three-point seatbelts for all seating positions, pre-tensioners with force limiters for front and outboard rear seats

Automatic Locking Retractor/Emergency Locking Retractor (ALR/ELR) seatbelts for front and outboard mounted rear passenger seating positions. Emergency Locking Retractor (ELR) only for driver's seat and center rear passenger seating position

Height-adjustable front shoulder belt anchors

Child Restraint Seat (CRS) tether anchor brackets for rear outboard seating positions

Rigid body structure with front and rear crumple zones

Side-impact door beams

Reinforcements in pillars and door sills

Impact-dissipating upper interior trim

SECURITY

Safety Connect^{TM11,14} offers Automatic Collision Notification, Stolen Vehicle Location, Emergency Assistance Button (SOS) and Enhanced Roadside Assistance¹⁵ services. Subscription required. One-year trial subscription included

Vehicle theft-deterrent and engine immobilizer,²⁸ with in-key transponder

Emergency interior trunk release

Lexus Enform^{11,12} with Safety Connect^{™11,14} offers Destination Assist, eDestination, Automatic Collision Notification, Stolen Vehicle Location, Emergency Assistance Button (SOS) and Enhanced Roadside Assistance¹⁵ services. Subscription required. One-year trial subscription included.

WARRANTY

Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the GS and GSh *Warranty and Services Guide* at your Lexus dealer for details.

1. Vehicle Stability Control (VSC) and Vehicle Dynamics Integrated Management (VDIM) are electronic systems designed to help the driver maintain control under adverse conditions. They are not substitutes for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC and VDIM will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. **2.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. **3.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. **4.** F-Sport Performance Accessories are aftermarket parts and are not Genuine Lexus Parts and, therefore, may not be used in any application that requires the use of Genuine Lexus Parts. F-Sport Accessories are warranted for 12 months from the date of installation or for the balance of the new-car or Certified Pre-Owned (CPO) warranty in force at the date of installation, whichever is greater, when installed by an authorized Lexus dealer. This warranty does not cover maintenance services such as replacement of brake pads/linings and clutch linings. This warranty does not cover noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. F-Sport Accessories installed by anyone other than an authorized Lexus dealer are warranted for 12 months from the date of purchase only, and the warranty coverage is limited to the replacement value of the F-Sport Accessory. This warranty does not cover maintenance services such as replacement of brake pads/linings and clutch linings. This warranty does not cover noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. Part failure caused by improper installation by anyone other than an authorized Lexus dealer may void the F-Sport Accessory warranty, the new-vehicle warranty or both. **5.** With either the Front- or Rear-Brake Upgrade, the compact spare tire cannot be used. In the event of a flat, the tire must be repaired or replaced. **6.** 19-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending upon driving conditions. **7.** May not be sold with a new vehicle and may not be financed together with a new vehicle. The air intake system has an aftermarket emission certificate only and cannot be sold or financed with a new vehicle. **8.** Requires 18-in G-Spider or SP-Mode accessory alloy wheels. **9.** Mark Levinson® is a registered trademark of Harman International Industries, Inc. **10.** Continuous average power, all channels driven, at less than 01% THD; 20-20,000 Hz. **11.** Availability on select 2010 Lexus models. Contact with the Lexus Enform response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Lexus Enform-equipped vehicles. Additional subscription terms available; charges vary by subscription term selected. **12.** Lexus Enform premium services Destination Assist and eDestination will function in the contiguous United States and Washington, DC. These services may also function in Hawaii and limited areas of Alaska for vehicles that contain map data for those states. They will not function in Canada or in other countries outside the United States. **13.** The Navigation System is designed to assist in locating an address or point of interest. XM® Radio, XM NavTraffic®, XM NavWeather™ and XM® Sports and Stocks require a monthly service fee and hardware. XM NavTraffic is designed to provide real-time traffic or alternative routes of travel; XM NavWeather is designed to provide real-time weather and forecasting information in your general vicinity and along your route of travel. Discrepancies may be encountered between the system and your actual location. Road system and weather changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic Navigation updates available at an additional cost. Please see your *Navigation System Owner's Manual* for further details. **14.** Safety Connect services will function in the United States, including Hawaii and Alaska, and in Canada. The services will not function outside of the United States in countries other than Canada. **15.** Coverage only available in the continental U.S. and Canada. Please see your Lexus dealer for details. **16.** All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your *Owner's Manual* for further information/warnings. **17.** XM NavTraffic® and XM NavWeather™ each require a separate XM subscription. XM® Sports and Stocks is available with an XM® Radio subscription. After a 90-day complimentary trial, you must set up the appropriate XM subscription(s) to continue receiving these services. The XM NavTraffic, XM NavWeather and XM Sports and Stocks services are available in the 48 contiguous United States and DC. For details about the XM service coverage areas, visit www.xmradio.com or call the XM Listener Care Center at 1-877-515-3987. To receive XM NavTraffic, XM NavWeather and XM Sports and Stocks services, XM service must be activated. To activate the service, call the XM Listener Care Center. Subscriptions are governed by the XM Customer Agreement available at xmradio.com/serviceterms. XM Radio fees, services and programming are subject to change. **18.** Functioning XM® Radio requires a monthly service fee. Please see your Lexus dealer for further details. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions governed by the XM Customer Agreement available at www.xmradio.com/serviceterms. Available only in the 48 contiguous United States and DC. **19.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important instructions and cautions. **20.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. **21.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your *Owner's Manual* for further information. **22.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. **23.** Active headrests can help reduce the extent of whiplash in certain types of rear-end collisions. **24.** 17-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 20,000 miles, depending upon driving conditions. **25.** 18-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending upon driving conditions. **26.** EPA MPG Estimates. Actual mileage will vary. **27.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **28.** The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or SmartAccess fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key or SmartAccess fob, it can be costly to replace. If you lose a key or SmartAccess fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local *Yellow Pages* or by contacting www.aloa.org. **29.** The Lexus Personalized Settings (LPS) can be programmed in two ways: For most models equipped with the available Navigation System, the driver can modify the settings themselves; for other models, including those without a Navigation System, programming is done by your Lexus dealer via a one-time, complimentary offer during the first 12 months from the date the vehicle is sold. Please see your Lexus dealer for more information. **30.** iPod® is a registered trademark of Apple Inc. All rights reserved. **31.** Bluetooth® technology phones listed on lexus.com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. **32.** Bluetooth® audio device must be enabled with A2DP and AVRCP. **33.** The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your *Owner's Manual* for details. **34.** Currently available PPO. Ask your Dealer Sales Consultant for vehicle application.

*Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.

The GS 350 with available all-wheel drive (AWD) means high-performance driving in virtually any kind of weather. In low-traction situations where other performance sedans might just turn around and go home, the GS 350 AWD doesn't hesitate for a moment. Engine power is automatically directed to the wheels with the best grip, helping to provide greater adherence to the road, especially during cornering. So while you weave your way through the twists and turns, you may find yourself wondering: Is it the all-wheel drive or just your incredible driving skills?

FarmaSOS.com

A STABILITY SYSTEM THAT KEEPS YOU IN CONTROL.

For even more assurance while cornering, every GS comes equipped with the advanced Vehicle Dynamics Integrated Management (VDIM)¹ system, which can help anticipate a skid—before it actually occurs. A series of sensors constantly monitor factors like speed and wheel angle to recognize when the GS could lose traction. It then takes the necessary precautions to help the vehicle stay on track.

FarmaSOS.com

COURTEOUS TO THE WORLD, LESS SO TO ASPHALT.

By producing fewer harmful emissions, the GS Hybrid model is no doubt better for the environment. Even so, with all the extra thrust its high-output electric motor churns out, it's still guilty of burning a lot of rubber.

Optional equipment shown.

T FROM ELECTRICITY,

تلفن شبانه روزی: ۰۲۱-۸۸۶۲۰۸۵

FarmaSOS.com

Seamless, instantaneous acceleration. Of all the benefits the GS Hybrid has to offer, this is the one that tends to be the most jaw-dropping. The moment you step on the accelerator, the high-power electric motor launches your GS swiftly and stealthily off the line. As you gain momentum, the V6 combustion engine engages, propelling you even faster. How fast? Thanks to Lexus Hybrid Drive, you can go from 0 to 60 in a mere 5.2 seconds.^{2,3} Now that's the kind of alternative power everyone can appreciate.

TECHNOLOGY AS IMPRESSIVE AS THE POWER IT PRODUCES.

At the core of the GS 450h is the advanced Lexus Hybrid Drive system, which features a powerful V6 gasoline engine and a high-output electric-drive motor. An Electronic Control Unit (ECU) constantly decides how much of each power source is required, helping to ensure peak performance and maximum efficiency.

Improving efficiency even more is regenerative braking, which uses kinetic energy produced during deceleration to recharge the hybrid battery. Braking as a source of power. Can you think of anything more ingenious?

IN THIS CASE, THE
SMALL DETAILS
ARE THE BIG PICTURE.

Only the finest materials go into a GS. Take the genuine wood trim. Each piece of paneling is carefully hand-selected, helping to ensure consistency in both grain and color. And then there are the available semi-aniline leather-trimmed seats, smooth to the touch but not so overly polished as to cause unwanted sliding during hard cornering. It's details like these that set the GS apart from other high-performance sedans. Along with its pure, unadulterated power, of course.

Miles and miles of winding road and not a hint of perspiration. This is not just a testament to your steadfast nerves, but also to the available heated and ventilated front seats. Tiny perforations in the available semi-aniline leather help the seats breathe, while built-in fans help circulate the air even more. And when the weather turns cold, the seats can be heated, helping you stay comfortable and relaxed, no matter how unnerving your path.

THE ENGINE ISN'T THE ONLY THING THAT'S PRECISION-TUNED.

The available 14-speaker Mark Levinson® Premium Surround Sound Audio System⁹ offers an aural experience more comparable to high-end home theaters than conventional car stereos. Each of its 14 speakers was painstakingly adjusted to match the acoustics of the GS interior. Put this system in any other Lexus model and it just wouldn't sound right. In the GS, however, it's about as close to audio nirvana as you'll ever experience. Featuring a 7.1-channel architecture and 330 watts of maximum power at less than 0.1% THD, 20-20,000 Hz,¹⁰ it all adds up to one thing: you, surrounded by perfection.

SAFETY CONNECT™

FarmaSOS.com

DESIGNED TO HELP

SAFEGUARD YOUR LIFE.

With Safety Connect,^{11,14} you can request emergency help, whether that means assisting the police with locating your stolen vehicle or requesting Enhanced Roadside Assistance¹⁵ for a flat tire. The Safety Connect^{11,14} service also features Automatic Collision Notification, which automatically sends a call for help the moment the system senses the vehicle has been in a severe rear-end collision or the airbags¹⁶ have been deployed.

LEARN MORE

LEXUS ENFORM™

DESIGNED TO HELP SIMPLIFY YOUR LIFE.

With the available Lexus Enform^{11,12} system, you can speak to a live service agent, 24 hours a day, seven days a week. You don't have to memorize any numbers, navigate through seemingly endless screens—or even have your cell phone with you.

Need an address? Simply call Destination Assist via the GS's available Navigation System¹³ for live assistance. Once you've decided on a location, your agent can send the turn-by-turn directions straight to your vehicle's Navigation System.¹³ Planning a trip? You also have the option of pre-selecting up to 200 destinations online and sending them to your vehicle.

OPEN ROADS AND BLUE SKIES. FANTASY BECOMES REALITY.

Nothing spoils a great drive faster than bumper-to-bumper traffic or unfavorable weather. Fortunately, the available NAV System¹³ in the GS gives you the option of subscribing to XM NavTraffic.^{®13,17} Just touch the screen for real-time traffic reports on specific roads. And if you find yourself heading toward a congested area, the system can help reroute you around the problem.

Another available feature, XM NavWeather,^{TM13,17} helps protect your driving enjoyment even more by delivering real-time weather reports and automatically alerting before you get there.

In addition to XM[®] Radio,^{13,17,18} other services include XM[®] Sports^{13,17} for real-time scores and schedules of your favorite teams, as well as XM[®] Stocks^{13,17} to help keep you updated on the investments you want to keep an eye on.

FOR THOSE RARE MOMENTS WHEN YOU CHOOSE TO FOLLOW.

The available Dynamic Radar Cruise Control¹⁹ uses radar wave technology to help the GS keep a pre-set following distance from the vehicle ahead. If the system senses you're too close to the vehicle you're following, the throttle is reduced and the brakes are applied. Of course, once the road clears or the vehicle you're following picks up its pace, the GS will return to its pre-set speed—that is, unless you prefer to lead.

FarmaSOS.com

EVEN THE HEADLAMPS ARE BUILT FOR CORNERING.

When it comes to high-performance driving, visibility is key. For enhanced nighttime driving—especially on winding roads—the available Adaptive Front Lighting System (AFS) can pivot the left headlamp up to 15 degrees and the right headlamp up to five degrees, helping to illuminate more of the road through turns.

In the daytime, the instrument-panel gauges utilize Electronic Chromatic Device (ECD) technology to help reduce glare. A sensor located near the rear window detects the amount of light being projected into the vehicle. At a certain level, the faces of the gauges automatically lower their transparency levels, making the GS even easier on the eyes.

Optional equipment shown.

BY THE TIME YOU REALIZE
THE NEED TO REACT,
IT ALREADY HAS.

You may have fast reflexes, but they can't compare to those of the available Pre-Collision System (PCS).²¹ It uses a front-mounted radar sensor to help detect an object ahead of your GS. When the system determines a frontal collision is imminent, it preemptively retracts the front seatbelts and preps Brake Assist²² so increased braking force is available the moment you step on the brake pedal. Of course, this all happens extremely fast. How fast? Faster than humanly possible.

WARRANTY

Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the GS and GSh Warranty and Services Guide at your Lexus dealer for details.

1. Vehicle Stability Control (VSC) and Vehicle Dynamics Integrated Management (VDIM) are electronic systems designed to help the driver maintain control under adverse conditions. They are not substitutes for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC and VDIM will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. **2.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. **3.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. **4.** F-Sport Performance Accessories are aftermarket parts and are not Genuine Lexus Parts and, therefore, may not be used in any application that requires the use of Genuine Lexus Parts. F-Sport Accessories are warranted for 12 months from the date of installation or for the balance of the new-car or Certified Pre-Owned (CPO) warranty in force at the date of installation, whichever is greater, when installed by an authorized Lexus dealer. This warranty does not cover maintenance services such as replacement of brake pads/linings and clutch linings. This warranty does not cover noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. F-Sport Accessories installed by anyone other than an authorized Lexus dealer are warranted for 12 months from the date of purchase only, and the warranty coverage is limited to the replacement value of the F-Sport Accessory. This warranty does not cover maintenance services such as replacement of brake pads/linings and clutch linings. This warranty does not cover noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. Part failure caused by improper installation by anyone other than an authorized Lexus dealer may void the F-Sport Accessory warranty, the new-vehicle warranty or both. **5.** With either the Front- or Rear-Brake Upgrade, the compact spare tire cannot be used. In the event of a flat, the tire must be repaired or replaced. **6.** 19-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending upon driving conditions. **7.** May not be sold with a new vehicle and may not be financed together with a new vehicle. The air intake system has an aftermarket emission certificate only and cannot be sold or financed with a new vehicle. **8.** Requires 18-in G-Spider or ISP-Mode accessory alloy wheels. **9.** Mark Levinson® is a registered trademark of Harman International Industries, Inc. **10.** Continuous average power, all channels driven, at less than 01% THD; 20-20,000 Hz. **11.** Availability on select 2010 Lexus models. Contact with the Lexus Enform response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Lexus Enform-equipped vehicles. Additional subscription terms available; charges vary by subscription term selected. **12.** Lexus Enform premium services Destination Assist and eDestination will function in the contiguous United States and Washington, DC. These services may also function in Hawaii and limited areas of Alaska for vehicles that contain map data for those states. They will not function in Canada or in other countries outside the United States. **13.** The Navigation System is designed to assist in locating an address or point of interest. XM® Radio, XM NavTraffic®, XM NavWeather™ and XM® Sports and Stocks require a monthly service fee and hardware. XM NavTraffic is designed to provide real-time traffic or alternative routes of travel; XM NavWeather is designed to provide real-time weather and forecasting information in your general vicinity and along your route of travel. Discrepancies may be encountered between the system and your actual location. Road system and weather changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic Navigation updates available at an additional cost. Please see your *Navigation System Owner's Manual* for further details. **14.** Safety Connect services will function in the United States, including Hawaii and Alaska, and in Canada. The services will not function outside of the United States in countries other than Canada. **15.** Coverage only available in the continental U.S. and Canada. Please see your Lexus dealer for details. **16.** All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your *Owner's Manual* for further information/warnings. **17.** XM NavTraffic® and XM NavWeather™ each require a separate XM subscription. XM® Sports and Stocks is available with an XM® Radio subscription. After a 90-day complimentary trial, you must set up the appropriate XM subscription(s) to continue receiving these services. The XM NavTraffic, XM NavWeather and XM Sports and Stocks services are available in the 48 contiguous United States and DC. For details about the XM service coverage areas, visit www.xmradio.com or call the XM Listener Care Center at 1-877-515-3987. To receive XM NavTraffic, XM NavWeather and XM Sports and Stocks services, XM service must be activated. To activate the service, call the XM Listener Care Center. Subscriptions are governed by the XM Customer Agreement available at xmradio.com/serviceterms. XM Radio fees, services and programming are subject to change. **18.** Functioning XM® Radio requires a monthly service fee. Please see your Lexus dealer for further details. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions governed by the XM Customer Agreement available at www.xmradio.com/serviceterms. Available only in the 48 contiguous United States and DC. **19.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important instructions and cautions. **20.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. **21.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your *Owner's Manual* for further information. **22.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. **23.** Active headrests can help reduce the extent of whiplash in certain types of rear-end collisions. **24.** 17-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 20,000 miles, depending upon driving conditions. **25.** 18-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending upon driving conditions. **26.** EPA MPG Estimates. Actual mileage will vary. **27.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **28.** The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or SmartAccess fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key or SmartAccess fob, it can be costly to replace. If you lose a key or SmartAccess fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local *Yellow Pages* or by contacting www.aloa.org. **29.** The Lexus Personalized Settings (LPS) can be programmed in two ways: For most models equipped with the available Navigation System, the driver can modify the settings themselves; for other models, including those without a Navigation System, programming is done by your Lexus dealer via a one-time, complimentary offer during the first 12 months from the date the vehicle is sold. Please see your Lexus dealer for more information. **30.** iPod® is a registered trademark of Apple Inc. All rights reserved. **31.** Bluetooth® technology phones listed on lexus.com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. **32.** Bluetooth® audio device must be enabled with A2DP and AVRCP. **33.** The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your *Owner's Manual* for details. **34.** Currently available PPO. Ask your Dealer Sales Consultant for vehicle application.

*Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.

SPECIFICATIONS

ENGINE

GS 460

TYPE	90° V8, aluminum block and heads
DISPLACEMENT	4.6 liters (281 cubic inches)
VALVETRAIN	Four cam, four valves per cylinder, with dual Variable Valve Timing with intelligence and Electronic intake valve timing (VVT-iE)
COMPRESSION RATIO	11.8:1
HORSEPOWER AT RPM	342 hp @ 6,200 ²
TORQUE AT RPM	339 lb-ft @ 3,600 ²
EMISSION RATING	Certified Ultra-Low Emission Vehicle (ULEV II)

GS 350

TYPE	60° V6, aluminum block and heads
DISPLACEMENT	3.5 liters (210 cubic inches)

SEATING AND TRIM

Golden bird's-eye maple, dark gray bird's-eye maple or red walnut interior trim

Semi-aniline perforated leather-trimmed interior (GS 460, GS 450h)

Perforated leather-trimmed interior (GS 350)

Leather-trimmed steering wheel and shift knob (GS 350)

Wood- and leather-trimmed steering wheel and shift knob (GS 460, GS 450h)

10-way driver's and front passenger's (including lumbar) power seats

Heated front seats (GS 350)

Heated and ventilated front seats (GS 460, GS 450h)

Height-adjustable headrests for all seats

Carpeted floor mats

COMMUNICATION, AUDIO AND NAVIGATION

Lexus 10-speaker Premium Surround Sound System with 5.1 architecture, Automatic Sound Levelizer (ASL) and in-dash, single-feed, six-disc CD auto-changer

XM® Radio.^{13,17,18} Subscription required. 90-day trial subscription included

USB audio input for iPod^{®30}/compatible music player integration with audio system

Bluetooth® technology³¹

Bluetooth audio³² profile for wireless integration of compatible music players with in-vehicle audio system

In-glass antenna with FM-diversity system

Backup camera²⁰ (GS 450h)

INSTRUMENTATION AND CONTROLS

Steering-wheel-mounted audio and display controls

Liquid-crystal multi-information console display

Electronic Chromatic Device (ECD) instrumentation

STANDARD SAFETY AND SECURITY FEATURES

ACTIVE SAFETY

Four-wheel ventilated power-assisted disc brakes

Electronic Controlled Braking (ECB) (GS 460, GS 450h)

Four-sensor, four-channel Anti-lock Braking System (ABS)

Vehicle Dynamics Integrated Management (VDIM)¹ with cutoff switch

Vehicle Stability Control (VSC)¹

Traction Control (TRAC)

Brake Assist²²

Electronic Brakeforce Distribution (EBD)

Direct Tire Pressure Monitor System³³

Adaptive Front Lighting System (AFS) (GS 460, GS 450h)

High-Intensity Discharge (HID) headlamps with dynamic auto leveling

Headlamp washers (GS 450h) تلفن شبانه روزی: ۰۸۵ ۸۸۶۲

Integrated foglamps

LED taillamps

Water-repellent front-door glass

Rain-sensing intermittent windshield wipers with mist cycle (GS 460, GS 450h)

Variable intermittent windshield wipers with mist cycle (GS 350)

Power-adjustable, auto-folding outside mirrors with defoggers, puddle lamps, integrated turn indicators and auto tilt-down in reverse

PASSIVE SAFETY

Driver's and front passenger's dual-stage airbag system (SRS)¹⁶

Front seat-mounted side airbags (SRS)¹⁶

Front and rear side curtain airbags (SRS)¹⁶

Driver's and front passenger's knee airbags (SRS)¹⁶

Rear-seat side airbags (SRS)¹⁶

Active front headrests²³

Three-point seatbelts for all seating positions, pre-tensioners with force limiters for front and outboard rear seats

Automatic Locking Retractor/Emergency Locking Retractor (ALR/ELR) seatbelts for front and outboard mounted rear passenger seating positions. Emergency Locking Retractor (ELR) only for driver's seat and center rear passenger seating position

Height-adjustable front shoulder belt anchors

Child Restraint Seat (CRS) tether anchor brackets for rear outboard seating positions

Rigid body structure with front and rear crumple zones

Side-impact door beams

Reinforcements in pillars and door sills

Impact-dissipating upper interior trim

SECURITY

Safety Connect^{TM11,14} offers Automatic Collision Notification, Stolen Vehicle Location, Emergency Assistance Button (SOS) and Enhanced Roadside Assistance¹⁵ services. Subscription required. One-year trial subscription included

Vehicle theft-deterrent and engine immobilizer,²⁸ with in-key transponder

Emergency interior trunk release

Lexus Enform^{11,12} with Safety Connect^{™11,14} offers Destination Assist, eDestination, Automatic Collision Notification, Stolen Vehicle Location, Emergency Assistance Button (SOS) and Enhanced Roadside Assistance¹⁵ services. Subscription required. One-year trial subscription included.

WARRANTY

Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the GS and GSH Warranty and Services Guide at your Lexus dealer for details.

1. Vehicle Stability Control (VSC) and Vehicle Dynamics Integrated Management (VDIM) are electronic systems designed to help the driver maintain control under adverse conditions. They are not substitutes for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC and VDIM will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. **2.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. **3.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. **4.** F-Sport Performance Accessories are aftermarket parts and are not Genuine Lexus Parts and, therefore, may not be used in any application that requires the use of Genuine Lexus Parts. F-Sport Accessories are warranted for 12 months from the date of installation or for the balance of the new-car or Certified Pre-Owned (CPO) warranty in force at the date of installation, whichever is greater, when installed by an authorized Lexus dealer. This warranty does not cover maintenance services such as replacement of brake pads/linings and clutch linings. This warranty does not cover noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. F-Sport Accessories installed by anyone other than an authorized Lexus dealer are warranted for 12 months from the date of purchase only, and the warranty coverage is limited to the replacement value of the F-Sport Accessory. This warranty does not cover maintenance services such as replacement of brake pads/linings and clutch linings. This warranty does not cover noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. Part failure caused by improper installation by anyone other than an authorized Lexus dealer may void the F-Sport Accessory warranty, the new-vehicle warranty or both. **5.** With either the Front- or Rear-Brake Upgrade, the compact spare tire cannot be used. In the event of a flat, the tire must be repaired or replaced. **6.** 19-inch performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending upon driving conditions. **7.** May not be sold with a new vehicle and may not be financed together with a new vehicle. The air intake system has an aftermarket emission certificate only and cannot be sold or financed with a new vehicle. **8.** Requires 18 in G-Spider or ISP-Mode accessory alloy wheels. **9.** Mark Levinson® is a registered trademark of Harman International Industries, Inc. **10.** Continuous average power, all channels driven, at less than 01% THD; 20-20,000 Hz. **11.** Availability on select 2010 Lexus models. Contact with the Lexus Enform response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Lexus Enform-equipped vehicles. Additional subscription terms available; charges vary by subscription term selected. **12.** Lexus Enform premium services Destination Assist and eDestination will function in the contiguous United States and Washington, DC. These services may also function in Hawaii and limited areas of Alaska for vehicles that contain map data for those states. They will not function in Canada or in other countries outside the United States. **13.** The Navigation System is designed to assist in locating an address or point of interest. XM® Radio, XM NavTraffic®, XM NavWeather™ and XM® Sports and Stocks require a monthly service fee and hardware. XM NavTraffic is designed to provide real-time traffic or alternative routes of travel; XM NavWeather is designed to provide real-time weather and forecasting information in your general vicinity and along your route of travel. Discrepancies may be encountered between the system and your actual location. Road system and weather changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic Navigation updates available at an additional cost. Please see your *Navigation System Owner's Manual* for further details. **14.** Safety Connect services will function in the United States, including Hawaii and Alaska, and in Canada. The services will not function outside of the United States in countries other than Canada. **15.** Coverage only available in the continental U.S. and Canada. Please see your Lexus dealer for details. **16.** All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your *Owner's Manual* for further information/warnings. **17.** XM NavTraffic® and XM NavWeather™ each require a separate XM subscription. XM® Sports and Stocks is available with an XM® Radio subscription. After a 90-day complimentary trial, you must set up the appropriate XM subscription(s) to continue receiving these services. The XM NavTraffic, XM NavWeather and XM Sports and Stocks services are available in the 48 contiguous United States and DC. For details about the XM service coverage areas, visit www.xmradio.com or call the XM Listener Care Center at 1-877-515-3987. To receive XM NavTraffic, XM NavWeather and XM Sports and Stocks services, XM service must be activated. To activate the service, call the XM Listener Care Center. Subscriptions are governed by the XM Customer Agreement available at xmradio.com/serviceterms. XM Radio fees, services and programming are subject to change. **18.** Functioning XM® Radio requires a monthly service fee. Please see your Lexus dealer for further details. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions governed by the XM Customer Agreement available at www.xmradio.com/serviceterms. Available only in the 48 contiguous United States and DC. **19.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important instructions and cautions. **20.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. **21.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your *Owner's Manual* for further information. **22.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. **23.** Active headrests can help reduce the extent of whiplash in certain types of rear-end collisions. **24.** 17-inch performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 20,000 miles, depending upon driving conditions. **25.** 18-inch performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending upon driving conditions. **26.** EPA MPG Estimates. Actual mileage will vary. **27.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **28.** The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or SmartAccess fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key or SmartAccess fob, it can be costly to replace. If you lose a key or SmartAccess fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local *Yellow Pages* or by contacting www.aa.org. **29.** The Lexus Personalized Settings (LPS) can be programmed in two ways: For most models equipped with the available Navigation System, the driver can modify the settings themselves; for other models, including those without a Navigation System, programming is done by your Lexus dealer via a one-time, complimentary offer during the first 12 months from the date the vehicle is sold. Please see your Lexus dealer for more information. **30.** iPod® is a registered trademark of Apple Inc. All rights reserved. **31.** Bluetooth® technology phones listed on lexus.com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. **32.** Bluetooth® audio device must be enabled with A2DP and AVRCP. **33.** The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your *Owner's Manual* for details. **34.** Currently available PPO. Ask your Dealer Sales Consultant for vehicle application.

*Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. PERFORMANCE AT YOUR COMMAND.

With features like an available eight-speed sequential-shift automatic transmission and the advanced stability control of Vehicle Dynamics Integrated Management (VDIM),¹ every adrenaline rush you experience in the GS is better than the last.

Optional equipment shown.

AVAILABLE IN A RANGE OF
INTENSITIES.

No matter what level of exhilaration you desire, the GS Line has everything you could need. From the remarkably agile GS 350 AWD to the extraordinarily powerful GS 450h, you won't be left wanting. Anything.

GS 350 AWD

3.5-liter V6, dual Variable Valve Timing with intelligence (VVT-i), six-speed sequential-shift automatic transmission and full-time all-wheel drive (AWD).

GS 350

3.5-liter V6, dual Variable Valve Timing with intelligence (VVT-i), six-speed sequential-shift automatic transmission.

GS 450h

3.5-liter V6, Super Ultra-Low Emission Vehicle (SULEV II), Variable Valve Timing with intelligence (VVT-i), high-output electric motor, Electronically controlled Continuously Variable Transmission (ECVT).

GS 460

4.6-liter V8, dual Variable Valve Timing with intelligence and Electronic intake valve timing (VVT-iE), eight-speed sequential-shift automatic transmission.

AN EDGE-OF-YOUR-SEAT THRILLER, PRESENTED
WITHOUT INTERRUPTION.

While the GS 460 can go from 0 to 60 in 5.4 seconds,^{2,3} what's truly extraordinary is how seamlessly it gets you there. An eight-speed sequential-shift automatic transmission glides through its gears, while Variable Valve Timing with intelligence and Electronic intake valve timing (VVT-iE) continuously adjusts the timing of the engine's valves to deliver optimum performance at all times. It's like starring in your own action movie—in perpetual fast-forward.

Optional equipment shown.

AWD

FarmaSOS.com

ICE? SNOW? GRAVEL?
CHILD'S PLAY.

The GS 350 with available all-wheel drive (AWD) means high-performance driving in virtually any kind of weather. In low-traction situations where other performance sedans might just turn around and go home, the GS 350 AWD doesn't hesitate for a moment. Engine power is automatically directed to the wheels with the best grip, helping to provide greater adherence to the road, especially during cornering. So while you weave your way through the twists and turns, you may find yourself wondering: Is it the all-wheel drive or just your incredible driving skills?

A STABILITY SYSTEM THAT KEEPS YOU IN CONTROL.

For even more assurance while cornering, every GS comes equipped with the advanced Vehicle Dynamics Integrated Management (VDIM)¹ system, which can help anticipate a skid—before it actually occurs. A series of sensors constantly monitor factors like speed and wheel angle to recognize when the GS could lose traction. It then takes the necessary precautions to help the vehicle stay on track.

The available Active Stabilizer Suspension System uses sensors and actuators to help reduce body tilt while cornering.

Optional equipment shown.

AN EVEN HIGHER
PERFORMANCE SEDAN.

FarmaSOS.com

Introducing F-Sport™ Accessories,⁴ racing-inspired components designed to not only make your GS look faster, but can actually help improve its performance. From Lowering Spring Sets to Brake Upgrades,^{4,5} these components are track-tested and designed to integrate seamlessly with your GS. HYBRID INNOVATION

COURTEOUS TO THE WORLD,
LESS SO TO ASPHALT.

By producing fewer harmful emissions, the GS Hybrid model is no doubt better for the environment. Even so, with all the extra thrust its high-output electric motor churns out, it's still guilty of burning a lot of rubber.

Optional equipment shown.

FarmaSOS.com

Seamless, instantaneous acceleration. Of all the benefits the GS Hybrid has to offer, this is the one that tends to be the most jaw-dropping. The moment you step on the accelerator, the high-power electric motor launches your GS swiftly and stealthily off the line. As you gain momentum, the V6 combustion engine engages, propelling you even faster. How fast? Thanks to Lexus Hybrid Drive, you can go from 0 to 60 in a mere 5.2 seconds.^{2,3} Now that's the kind of alternative power everyone can appreciate.

TECHNOLOGY AS IMPRESSIVE AS THE
POWER IT PRODUCES.

At the core of the GS 450h is the advanced Lexus Hybrid Drive system, which features a powerful V6 gasoline engine and a high-output electric-drive motor. An Electronic Control Unit (ECU) constantly decides how much of each power source is required, helping to ensure peak performance and maximum efficiency.

Improving efficiency even more is regenerative braking, which uses kinetic energy produced during deceleration to recharge the hybrid battery. Braking as a source of power. Can you think of anything more ingenious?

IN THIS CASE, THE SMALL DETAILS ARE THE BIG PICTURE.

Only the finest materials go into a GS. Take the genuine wood trim. Each piece of paneling is carefully hand-selected, helping to ensure consistency in both grain and color. And then there are the available semi-aniline leather-trimmed seats, smooth to the touch but not so overly polished as to cause unwanted sliding during hard cornering. It's details like these that set the GS apart from other high-performance sedans. Along with its pure, unadulterated power, of course.

Optional equipment shown.

NO MATTER HOW EXTREME
THE DRIVE, YOU'LL ALWAYS
FEEL AT EASE.

Miles and miles of winding road and not a hint of perspiration. This is not just a testament to your steadfast nerves, but also to the available heated and ventilated front seats. Tiny perforations in the available semi-aniline leather help the seats breathe, while built-in fans help circulate the air even more. And when the weather turns cold, the seats can be heated, helping you stay comfortable and relaxed, no matter how unnerving your path.

Optional equipment shown.

THE ENGINE ISN'T THE ONLY THING THAT'S PRECISION TUNED.

The available 14-speaker Mark Levinson® Premium Surround Sound Audio System⁸ offers an aural experience more comparable to high-end home theaters than conventional car stereos. Each of its 14 speakers was painstakingly adjusted to match the acoustics of the GS interior. Put this system in any other Lexus model and it just wouldn't sound right. In the GS, however, it's about as close to audio nirvana as you'll ever experience. Featuring a 7.1-channel architecture and 330 watts of maximum power at less than 0.1% THD, 20-20,000 Hz,⁹ it all adds up to one thing: you, surrounded by perfection.

AHEAD OF THE PACK, AS WELL AS ITS TIME.

In the automotive race, being fast isn't enough. You have to be constantly moving forward, in design, engineering and, of course, innovation. The GS offers a range of technologies, all with the goal of many: making your drive as exhilarating as possible.

- INNOVATION
- CONVENIENCE
- VISION
- SAFETY

Optional equipment shown.

LEARN MORE

CLICK TO WATCH LEXUS ENFORM DEMO >>

LEXUS ENFORM™

DESIGNED TO HELP SIMPLIFY YOUR LIFE.

With the available Lexus Enform^{10,11} system, you can speak to a live service agent, 24 hours a day, seven days a week. You don't have to memorize any numbers, navigate through seemingly endless screens—or even have your cell phone with you.

• Need an address? Simply call Destination Assist via the GS's available navigation system for live assistance. Once you've decided on a location, your agent can send the turn-by-turn directions straight to your vehicle's Navigation System.¹² Planning a trip? You also have the option of pre-selecting up to 200 destinations online and sending them to your vehicle.

SAFETY CONNECT™

DESIGNED TO HELP SAFEGUARD YOUR LIFE.

With Safety Connect^{10,13} you can request emergency help, whether that means assisting the police with locating your stolen vehicle or requesting Enhanced Roadside Assistance¹⁴ for a flat tire. The Safety Connect^{10,13} service also features Automatic Collision Notification, which automatically sends a call for help the moment the system senses the vehicle has been in a severe rear-end collision or the airbags¹⁵ have been deployed.

CLICK TO WATCH SAFETY CONNECT DEMO >>

OPEN ROADS AND BLUE SKIES. FANTASY BECOMES REALITY.

Nothing spoils a great drive faster than bumper-to-bumper traffic or unfavorable weather. Fortunately, the available NAV System¹² in the GS gives you the option of subscribing to XM NavTraffic.^{®12,16} Just touch the screen for real-time traffic reports on specific roads. And if you find yourself heading toward a congested area, the system can help reroute you around the problem.

Another available feature, XM NavWeather,^{TM12,16} helps protect your driving enjoyment even more by delivering real-time weather reports and automatically alerting before you get there.

In addition to XM[®] Radio,^{12,16,17} other services include XM[®] Sports^{12,16} for real-time scores and schedules of your favorite teams, as well as XM[®] Stocks^{12,16} to help keep you updated on the investments you want to keep an eye on.

FOR THOSE RARE MOMENTS WHEN YOU CHOOSE TO FOLLOW.

The available Dynamic Radar Cruise Control¹⁸ uses radar wave technology to help the GS keep a pre-set following distance from the vehicle ahead. If the system senses you're too close to the vehicle you're following, the throttle is reduced and the brakes are applied. Of course, once the road clears or the vehicle you're following picks up its pace, the GS will return to its pre-set speed—that is, unless you prefer to lead.

Available Dynamic Radar Cruise Control¹⁸ constantly measures the driving distance between you and the vehicle traveling ahead.

Optional equipment shown.

EVEN THE HEADLAMPS ARE BUILT FOR CORNERING.

تلفن شبانه روزی: ۰۲۱-۸۸۸۶۲۰۸۵

FarmaSOS.com

When it comes to high-performance driving, visibility is key. For enhanced nighttime driving—especially on winding roads—the available Adaptive Front Lighting System (AFS) can pivot the left headlamp up to 15 degrees and the right headlamp up to five degrees, helping to illuminate more of the road through turns.

In the daytime, the instrument-panel gauges utilize Electronic Chromatic Device (ECD) technology to help reduce glare. A sensor located near the rear window detects the amount of light being projected into the vehicle. At a certain level, the faces of the gauges automatically lower their transparency levels, making the GS even easier on the eyes.

Optional equipment shown.

EXTRAORDINARY PERFORMANCE,
EVEN IN REVERSE.

To help you keep an eye on things, the GS features an available small backup camera¹⁹ concealed just above the rear license plate. Place the GS in reverse and the bright, multi-informational color display provides an expanded view of the area behind the vehicle. This allows you to back up with more confidence, so you can quickly get back to doing what the GS does best: moving forward.

Optional equipment shown.

BY THE TIME YOU REALIZE
THE NEED TO REACT,
IT ALREADY HAS.

You may have fast reflexes, but they can't compare to those of the available Pre-Collision System (PCS).²⁰ It uses a front-mounted radar sensor to help detect an object ahead of your GS. When the system determines a frontal collision is imminent, it preemptively retracts the front seatbelts and preps Brake Assist²¹ so increased braking force is available the moment you step on the brake pedal. Of course, this all happens extremely fast. How fast? Faster than humanly possible.

WARRANTY

Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the GS and GS_h Warranty and Services Guides at your Lexus dealer for details.

1. Vehicle Stability Control (VSC) and Vehicle Dynamics Integrated Management (VDIM) are electronic systems designed to help the driver maintain vehicle control under adverse conditions. They are not substitutes for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC or VDIM will be effective in preventing a loss of control. Please see your Owner's Manual for further details. 2. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. 3. Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. 4. F-Sport Performance Accessories are aftermarket parts and are not Genuine Lexus Parts and, therefore, may not be used in any application that requires the use of Genuine Lexus Parts. F-Sport Accessories are warranted for 12 months from the date of installation or for the balance of the new-car warranty in force at the date of installation, whichever is greater, when installed by an authorized Lexus dealer. This warranty does not cover maintenance services such as replacement of brake pads/linings and clutch linings. This warranty does not cover noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. F-Sport Accessories installed by anyone other than an authorized Lexus dealer are warranted for 12 months from the date of purchase only, and the warranty coverage is limited to the replacement value of the F-Sport Accessory. This warranty does not cover maintenance services such as replacement of brake pads/linings and clutch linings. This warranty does not cover noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. Part failure caused by improper installation by anyone other than an authorized Lexus dealer may void the F-Sport Accessory warranty, the new-vehicle warranty or both. 5. With either the Front- or Rear-Brake Upgrade, the compact spare tire cannot be used. In the event of a flat, the tire must be repaired or replaced. 6. 19-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending on driving conditions. 7. The air intake system has an aftermarket emission certificate only and cannot be sold or financed with a new vehicle. 8. Mark Levinson is a registered trademark of Harman International Industries, Inc. 9. Continuous average power, all channels driven, at less than 0.01% THD; 20–20,000 Hz. 10. Available on select 2010 Lexus models. Contact with the Lexus Enform response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Lexus Enform-equipped vehicles. Additional subscription terms available; charges vary by subscription term selected. 11. Lexus Enform premium services Destination Assist and eDestination will function in the contiguous United States and Washington, D.C. These services may also function in Hawaii and limited areas of Alaska for vehicles that contain map data for those states. They will not function in Canada or in other countries outside the United States. 12. The Navigation System is designed to assist in locating an address or point of interest. XM Radio, XM NavTraffic, XM NavWeather and XM® Sports and Stocks require a monthly service fee and hardware. XM NavTraffic is designed to provide real-time traffic or alternative routes of travel; XM NavWeather is designed to provide real-time weather and forecasting information in your general vicinity and along your route of travel. Discrepancies may be encountered between the system and your actual location. Road system and weather changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic Navigation updates available at an additional cost. Please see your Navigation System Owner's Manual for further details. 13. Safety Connect services will function in the United States, including Hawaii and Alaska, and in Canada. The services will not function outside of the United States in countries other than Canada. 14. Coverage only available in the continental U.S. and Canada. Please see your Lexus dealer for details. 15. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your Owner's Manual for further information/warnings. 16. XM NavTraffic and XM NavWeather each require a separate XM subscription. XM Sports and Stocks is available with an XM Radio subscription. After a 90-day complimentary trial, you must set up the appropriate XM subscription(s) to continue receiving these services. The XM NavTraffic, XM NavWeather and XM Sports and Stocks services are available in the 48 contiguous United States and D.C. For details about the XM service coverage areas, visit www.xmradio.com or call the XM Listener Care Center at 1-877-515-3987. To receive XM NavTraffic, XM NavWeather and XM Sports and Stocks services, XM service must be activated. To activate the service, call the XM Listener Care Center. Subscriptions are governed by the XM Customer Agreement available at xmradio.com/serviceterms. XM Radio fees, services and programming are subject to change. 17. Functioning XM Radio requires a monthly service fee. Please see your Lexus dealer for further details. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions governed by the XM Customer Agreement available at xmradio.com/serviceterms. Available only in the 48 contiguous United States and D.C. 18. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your Owner's Manual for important instructions and cautions. 19. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. 20. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your Owner's Manual for further information. 21. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. 22. 20-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 20,000 miles, depending on driving conditions. 23. 18-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending on driving conditions. 24. 17-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 20,000 miles, depending on driving conditions. 25. EPA-estimated mileage. Actual mileage will vary. 26. The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 27. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or SmartAccess fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key or SmartAccess fob, it can be costly to replace. If you lose a key or SmartAccess fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloa.org. 28. The Lexus Personalized Settings (LPS) Program is a one-time, complimentary offer for new vehicles for the first 12 months from the date the vehicle is sold. Please see your Lexus dealer for more information. 29. iPod is a registered trademark of Apple Inc. All rights reserved. 30. The Bluetooth technology phones listed on lexus.com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. 31. Bluetooth audio device must be enabled with A2DP and AVRCP. 32. The Lexus Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your Owner's Manual for details. 33. Active headrests can help reduce the extent of whiplash in certain types of rear-end collisions. 34. Currently available PPO. Ask your Dealer Sales Consultant for vehicle application.

*Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
